

Our Journey of Faith, Gender, and Resilience

A Case Study from Sri Lanka

Novil Wijesekara

Resilience Research, Training and Consulting
Sri Lanka.

A grayscale photograph of a classical building facade, featuring several large columns with ornate Corinthian capitals. The columns are arranged in a row, and the background shows a pediment with intricate carvings. The image is slightly faded, creating a soft, historical atmosphere.

Pillars of Resilience Project

Funded by

Administered by

Sarvodaya

Implemented by

Small & Mighty Grants Program

Offered by U.S. Embassy Colombo

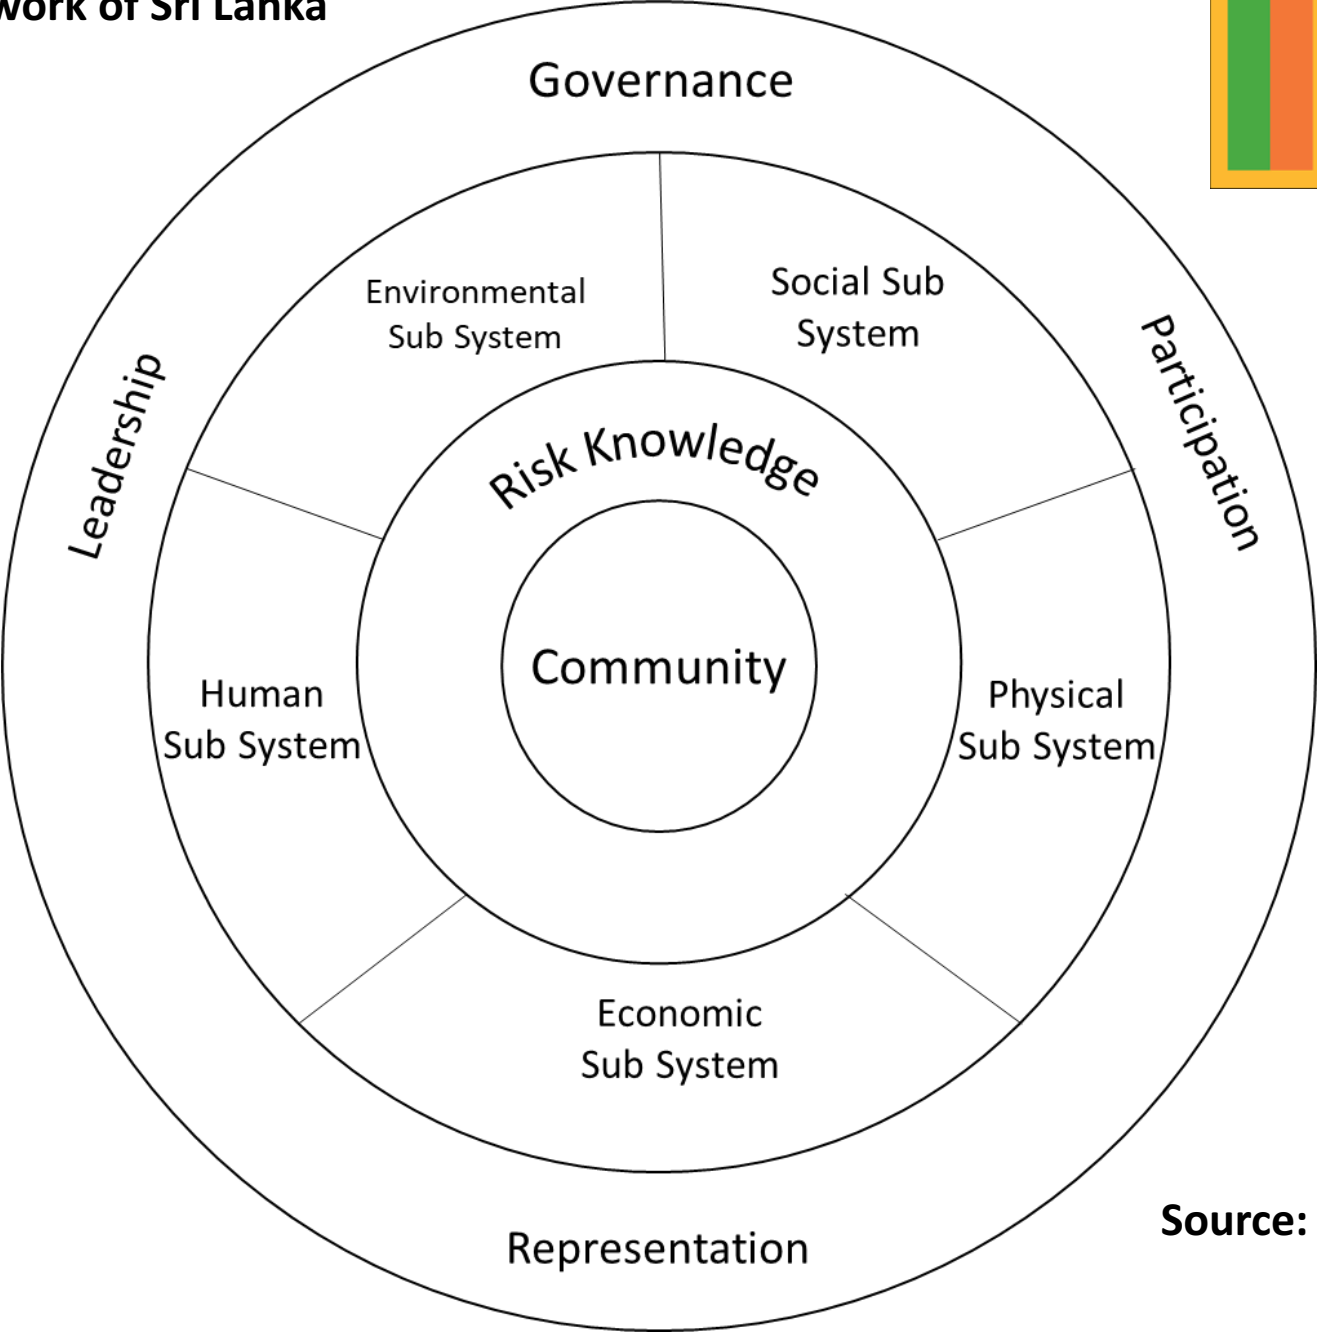

Community Resilience

Community resilience is the ability of a community to 'bounce back' and recover using its own resources' and also the ability of groups or communities to cope with external shocks and stresses as a result of social, environmental and political change.

The Network for
Religious and
Traditional
Peacemakers

Role of Religious Leaders During the COVID 19

Lessons learnt

Religious and faith-leaders are **PILLARS OF RESILIENCE** of our communities.

Capacity building of religious and faith-leaders could contribute towards promoting climate resilience.

Religions and faith-leaders should be engaged as proactive stakeholders in promoting sexual and reproductive health rights during emergencies.

Thank you!
